FEATURES

CALCULATION ENGINE

Leverage StreetSavers powerful calculations engine to project future deterioration and budget needs.

GPS TOOLS AND LINKS

Use polygon tools to accurately and precisely select the area of your Parking Lots.

Link your Parking Lots to the GIS map for a quick and vibrant glance of your Parking Lot inventory. Use custom colors to make your lot sections stand out.

LOT TYPE

No two lots are the same! Parking Lot type represents the stresses that lots face for a more accurate reporting. High Utilization, Low Utilization, Entrance, and more.

MIXED/LOTS ONLY MODE

Inspections, M&R, Reporting, Budgeting, Area ID's and Custom fields are all available for tracking condition and inventory. View your roads and lots side by side in the Mixed mode.
